SUMMARY

Full Stack Developer with 3 years of experience in building cutting-edge web and mobile platforms. I have developed a solid background in Node js and Express. I am looking to join your team and ready to apply my expertise to deliver high-quality solutions.

EXPERIENCE

Full Stack Developer (Team Lead)

Web & Mobile Solutions   **September 2023 - August 2025, Sfax**

· Led a cross-functional Scrum team of 5 to deliver 3 full-stack web and mobile platforms, improving development cycle efficiency by 20% through better sprint planning and code reviews.
· Designed and deployed an AI-enhanced e-commerce platform (Deco 6) using Spring Boot, Vue.js, and MySQL, increasing sales by 30% and reducing order management time by 40% through automated inventory and order tracking.
· Managed Agile delivery cycles by optimizing sprint planning and backlog prioritization, achieving 100% on-time feature releases across projects in retail, culinary, and event management sectors.
· Implemented scalable RESTful APIs and backend services in Spring Boot, Nodejs integrating secure payment gateways and AI-driven product recommendations that increased checkout success rates by 22%.

Full stack Developer (Freelancer)

Mostaql   **August 2024 - March 2025**

· Successfully delivered 20+ projects with a 90%+ completion rate, earning recognition for reliability and high client satisfaction on freelance platform.
· Earned top-tier freelancer badges including "Distinguished Freelancer," "Committed Freelancer," and "Excellent Project Completion Rate (90%+)" demonstrating strong trust, reliability, and consistent high performance.
· Designed and launched Asal Raheeq, a MERN-based platform for a honey supplier, enabling delivery tracking and logistics management across multiple cities in Yemen.

PROJECT

Couscous Academy (Tunisian Culinary Academy)

Web and Mobile Solutions · February 2025 - June 2025

· Developed a Spring Boot and Angular platform for an online culinary academy, supporting 500+ cooking course enrollments and 200+ workshop reservations within the first 6 months.
· Boosted client activity and participation by 70%, reducing manual booking efforts by 50% through automated scheduling and notifications.
· Enhanced user retention by 45% through personalized course recommendations and a streamlined booking interface.

EDUCATION

Bachelors of Computer Engineering

Minor in Artificial Intelligence · Higher Institute of Computer Science of Mahdia · Sidi massoud, Hiboun 5147 · 2023 · 3.6

· Awarded Best Final Year Project at ISIMA
